SUMMARY

Front-End Developer with over an year of experience building responsive web applications using React.js, Next.js, and JavaScript frameworks. Skilled in performance optimization, API integration, and scalable UI development. Proven ability to meet deadlines and deliver user-focused solutions

WORK EXPERIENCE

Frontend Developer, Crisfood Online LLP   **Mar 2023 - Present**

- Collaborated with a cross-functional team to redesign the user interface of Crisfood Online's platform using React.js, resulting in a **18% reduction in user drop-off rates** during the checkout process, **increasing overall sales**
- Revamped a web application from Angular to React.js, achieving a **24% faster load time** and improving overall performance.
- Designed and implemented an **AI-powered dashboard** enabling users to create documents and interact with AI based on document context, improving user productivity and engagement.
- Contributed to various stages of the project lifecycle, including design, development, testing, and deployment.

Web Developer Intern , Crisfood Online LLP   **Dec 2022 - Feb 2023**

- Gained hands-on experience in the full software development cycle, from requirement analysis to deployment.
- Collaborated with senior developers to troubleshoot and debug issues, enhancing code quality and project efficiency.
- Acquired practical knowledge in version control using Git and GitHub, managing code repositories and collaborating with the team.

EDUCATION

Bachelor of Science in Computer Science   **May 2023**
B.N.N. College (University Of Mumbai)

PROJECTS

Real-Time Voting System | Link   **Oct 2023**
Developed and deployed a real-time voting system using React.js, Redux for state management, and Firebase for authentication and real-time database.

E-Commerce Website | Link   **Jan 2024**
Created and implemented an e-commerce website using React.js for the front end and Redux for efficient state management.
